

Natrium Capital Limited

10 Bloomsbury Way
London WC1A 2SL

NATRIUM CAPITAL LIMITED

**Opportunity for third year Chemistry or Chemical Engineering Masters students
8-week Internship – Summer 2021**

Job Specification

Salary:

£ Competitive

Company description:

Natrium Capital Limited specialises in providing strategic corporate finance advice to the chemicals, materials, bio-tech and alternative energy industries. The focus is on mergers, acquisitions, divestments, and strategic advisory projects. The company was formed in 2012 and is based in Bloomsbury, with strategic alliances in global locations. Natrium Capital has operated a very successful internship programme since 2013, and three former interns are now full-time employees. The office is intimate, hard-working and provides an opportunity for the right individual to become part of the team and get involved in all aspects of the business at an early stage. We have had limited disruption during lockdown. Everyone is successfully working from home with daily coordination calls and frequent additional contact within the team via Zoom and Teams.

Job description:

The individual will work for eight weeks during the summer vacation starting in June or August 2021, with an opportunity for permanent employment following graduation. As part of a small team, the analyst will have the opportunity to be a part of all aspects of the corporate finance process and gain exposure to different aspects of executing the assignments through working with senior professionals. The job involves supporting senior staff in a range of research, analytical and presentation preparation roles and working within the team to provide clients with high quality levels of advice in a timely and efficient manner.

It is possible that the role will involve working from home, rather than the office, and so self-motivation will be important.

Natrium Capital is an equal opportunities employer.

Person Specification:

We are looking for one or two students who have completed three years of a four year Masters in Chemistry or Chemical Engineering (or similar degree). We are looking for highly motivated individuals with a keen interest in both finance and the Chemical industry.

Prospective candidates should be able to demonstrate the following:

- A commitment to acting with honesty and integrity
- Curiosity to learn about the Chemical industry in practice
- A keen interest in current affairs
- Exceptional numeracy skills. This should be demonstrated by a minimum of a Grade A or A* in Mathematics at A Level and excellent marks in courses of continuing Mathematics education whilst at University
- Excellent computer skills – especially MS Word, Excel and PowerPoint
- Familiarity with video conferencing using Zoom, Teams and other formats
- Attention to detail
- Good interpersonal skills, including video conferencing
- Fluent written and spoken English
- UK passport or Right to work and Right to remain in the UK

How to apply:

Please send your CV and a covering letter to:

info@natriumcapital.com.

Please include the name and contact details of one referee who can comment on your character, honesty and integrity and a second referee who is able to comment on your academic standing (including any grades achieved at university) and general suitability for the role.

Applications close on 1st April 2021
