

Natrium Capital Limited
10 Bloomsbury Way
London WC1A 2SL

NATRIUM CAPITAL LIMITED

Opportunity for third year Chemistry or Chemical Engineering Masters students

8-week Internship – Summer 2022

Job Specification

Salary:

£ Competitive

Company description:

Natrium Capital Limited specialises in providing strategic corporate finance advice to the chemicals, materials, recycling, alternative energy and bio-tech industries. The focus is on mergers and acquisitions, divestments, and strategic advisory projects. The company was formed in 2012 and is based in Bloomsbury in London, with strategic alliances in global locations. Natrium Capital has operated a very successful internship programme since 2013, and four former interns have been offered full-time roles. We are a close-knit and hard-working team and the internship provides an opportunity for the right individual to get involved in all aspects of the business at an early stage. We have operated very successfully from home during the 'lockdowns' but we expect that working from the office will be an integral part of the internship in 2022.

Job description:

The individual will work for eight weeks during the summer vacation starting in June or August 2022, with an opportunity for permanent employment following graduation. As part of the team, the analyst will have the opportunity to be a part of all aspects of the corporate finance process and gain exposure to different aspects of executing the assignments through working with senior professionals. The job involves supporting senior staff in a range of research, analytical and presentation preparation roles and working within the team to provide clients with high quality levels of advice in a timely and efficient manner.

You will be expected to work independently, under guidance. Training will be given but self-motivation will be important to get the most out of the experience.

Natrium Capital is an equal opportunities employer.

Person Specification:

We are looking for two or three students who have completed three years of a four year Masters degree in Chemistry or Chemical Engineering (or similar degree). We are looking for highly motivated individuals with a keen interest in both finance and the Chemical industry.

Prospective candidates should be able to demonstrate by their experiences, either at university or elsewhere, the following:

- A commitment to acting with honesty and integrity
- Curiosity to learn about the Chemical industry in practice
- A keen interest in current affairs
- Attention to detail

Candidates must also have the following:

- Exceptional numeracy skills. [This should be demonstrated by a minimum of a Grade A or A* in Mathematics at A Level and excellent marks in courses of continuing Mathematics education whilst at University.]
- Excellent computer skills – especially MS Word, Excel and PowerPoint
- Familiarity with video conferencing such as Zoom and Microsoft Teams
- Good interpersonal skills, including video conferencing
- Fluent written and spoken English
- UK passport or Right to work and Right to remain in the UK

How to apply:

Please send your CV and a covering letter to info@natriumcapital.com. Please include the name and contact details of one referee who can comment on your character, honesty and integrity and a second referee who is able to comment on your academic standing (including any grades achieved at university) and general suitability for the role.

Applications close on Monday 11th April 2022
