

Natrium Capital Limited

10 Bloomsbury Way

London WC1A 2SL

NATRIUM CAPITAL LIMITED

Opportunity for Chemistry or Chemical Engineering Masters or PhD

Trainee Research Analyst

Job Specification

Salary:

£ Competitive

Company description:

Natrium Capital Limited specialises in providing strategic corporate finance advice to the chemicals, materials, recycling, alternative energy and bio-tech industries. The focus is on mergers and acquisitions, divestments, and strategic advisory projects. The company was formed in 2012 and is based in Bloomsbury in London, with strategic alliances in global locations. We are a close-knit and hard-working team and this is an opportunity for the right individual to join our growing team.

Job description:

This is a full-time post paid internship, which is expected to convert to a permanent role at the end of one year. As part of the team, the trainee research analyst will have the opportunity to be a part of all aspects of the corporate finance process and gain exposure to different aspects of executing the assignments through working with senior professionals. The job involves supporting senior staff in a range of research, analytical and presentation preparation roles and working within the team to provide clients with high quality levels of advice in a timely and efficient manner.

You will be expected to work independently, under guidance. Training will be given but self-motivation will be important to get the most out of the experience.

Natrium Capital is an equal opportunities employer.

(Cont'd)

Person Specification:

We are looking for highly motivated individuals with a keen interest in both finance and the Chemical industry.

Prospective candidates should be able to demonstrate by their experiences, either at university or elsewhere, the following:

- A commitment to acting with honesty and integrity
- Curiosity to learn about the Chemical industry in practice
- A keen interest in current affairs
- Attention to detail

Candidates must also have the following:

- A masters or doctorate in Chemistry or Chemical Engineering
- Exceptional numeracy skills. [This should be demonstrated by a minimum of a Grade A or A* in Mathematics at A Level and continuing Mathematics education whilst at University.]
- Excellent computer skills – especially MS Word, Excel and PowerPoint
- Familiarity with video conferencing such as Zoom and Microsoft Teams
- Good interpersonal skills, including video conferencing
- UK passport or Right to work and Right to remain in the UK

How to apply:

Please send your CV and a covering letter to info@natriumcapital.com. Please include the name and contact details of one referee who can comment on your character, honesty and integrity and a second referee who is able to comment on your academic standing (including any grades achieved at university) and general suitability for the role.

Applications close on Friday 27th October 2023
