

**Natrium Capital Limited**  
10 Bloomsbury Way  
London WC1A 2SL

## **NATRIUM CAPITAL LIMITED**

**Opportunity for third year Chemistry or Chemical Engineering Masters students**

**8-week Internship – Summer 2024**

### **Job Specification**

**Job title:**

Chemicals M&A research analyst - intern

**Salary:**

£ Competitive

**Company description:**

[Natrium Capital Limited](#) specialises in providing strategic corporate finance services to the chemicals, materials, recycling, alternative energy and bio-tech industries. The focus is on [mergers and acquisitions, divestments, and strategic advisory projects](#).

The Company is based in Bloomsbury in London, with strategic alliances in global locations. Natrium Capital has operated a very successful internship programme for ten years, and several former interns have been offered full-time roles.

Natrium Capital is an equal opportunities employer.

**Job description:**

The individual will work for eight weeks during the summer vacation starting in June or August 2024, with an opportunity for permanent employment following graduation. The job involves supporting senior staff in a range of research, analytical and presentation preparation roles and working within the team to provide clients with high quality advice in a timely and efficient manner.

We are a close-knit and hard-working [team](#) and the internship provides an opportunity for the right individual to get involved in all aspects of the business at an early stage.

You will be expected to work independently, under guidance. Training will be given but self-motivation will be important to get the most out of the experience. You will contribute to real projects and will learn about financial analysis, the chemical industry and how to work in an office environment. The internship will be based in Central London.

## Person Specification:

We are looking for two or three students are in the penultimate year of an undergraduate or post-graduate Chemistry or Chemical Engineering (or similar) degree. We are looking for highly motivated individuals with a keen interest in both finance and the Chemical industry.

Applications should set out your knowledge of science and the chemical industry and why your personal qualities or experiences suit you to a career in chemicals investment banking.

Prospective candidates should be able to demonstrate by their experiences, either at university or elsewhere, the following:

- Curiosity to learn about the Chemical industry in practice
- A keen interest in current affairs
- A commitment to acting with honesty and integrity

Candidates must also have the following:

- Exceptional numeracy skills. [This should be demonstrated by a minimum of a Grade A or A\* in Mathematics at A Level and excellent marks in courses of continuing Mathematics education whilst at University.]
- Excellent computer skills in MS Word, Excel and PowerPoint
- Good interpersonal skills, including fluent written and spoken English
- Familiarity with video conferencing platforms, eg Zoom; Microsoft Teams
- Attention to detail
- UK passport or Right to work and Right to remain in the UK

## How to apply:

Please email your CV and a covering letter to [info@natriumcapital.com](mailto:info@natriumcapital.com)

The covering letter should explain your suitability for this role by setting out your knowledge of science and the chemical industry and why your personal qualities or experiences suit you to [a career in chemicals investment banking](#).

Please include the name and contact details of one referee who is able to comment on your academic standing (including any grades achieved at university) and general suitability for the role and a second referee who can comment on your character, honesty and integrity.

Applications close on Friday 1<sup>st</sup> March 2024
